**Wrestling Camp at Dobyys-Bennett  
Jeff Reagan Asst Head Coach at the Citadel**

**Jeff Ragan** who was an All-American at Oklahoma State and who is the asst. coach at the Citadel. He was also a 6x Freestyle All-American. He won 2 state titles in Florida. He was at camp the last two years and has done an outstanding job. He will be covering the skills that he employed to be an All-American at Oklahoma State and the same skills he employs while coaching on the college level. Jeff is also a mathematics professor at the Citadel and understands the importance of the connection between academics and athletics. He will help instill that in our athletes while he is here this Summer. He will also discuss important details such as nutrition, off-season conditioning, lifting, running and what it takes to make it at the college level as a student athlete. I anticipate this to be a truly important time for everyone who aspires to make the jump into collegiate athletics

as well as a tremendous time growing in wrestling skills and knowledge.

Come join us as we grow and learn together as a wrestling family!
